### INDEPENDENT AUDITOR'S REPORT

To The Mayor and Members of Council Borough of East Petersburg East Petersburg, Pennsylvania

### **Report on the Financial Statements**

We have audited the accompanying modified cash basis financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Borough of East Petersburg as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Borough of East Petersburg as of December 31, 2015, and the respective changes in financial position for the year then ended in accordance with the basis of accounting described in Note 1.

# **Basis of Accounting**

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principle generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

#### **Report on Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough's modified cash basic financial statements. The combining capital projects fund financial statements is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The combining capital projects fund financial statements is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

### **Disclaimer of Opinion on Other Information**

The budgetary comparison information on page 23, which is the responsibility of management, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

### **Other Matters**

Management has not presented the management's discussion and analysis that governmental accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

# NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Borough of East Petersburg were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. The Governmental Accounting Standards Board (GASB) is the authoritative standard-setting body of the establishment of governmental accounting and financial reporting principles. The more significant of these accounting policies are as follows:

### A. Reporting Entity

In evaluating the Borough as a reporting entity, management has addressed all potential component units, which may or may not fall within the Borough's financial accountability. The criteria used to evaluate component units for possible inclusion of the Borough's reporting entity are financial accountability and the nature and significance of the relationship. This report includes all of the funds of the Borough of East Petersburg. The Borough is not a component unit of another reporting entity, nor does it have any component units.

The following joint ventures are not component units of the Borough of East Petersburg, and are not included in this report:

Hempfield Area Recreation Commission (HARC) – is a separate legal entity. It was organized to provide for recreational needs of the residents of the Hempfield area. HARC uses the Hempfield Sports Complex and existing school or municipal facilities to provide a wide range of activities year round under the supervision of an executive director. HARC is composed of a chairman (member-at-large) and a tenmember board with members from each of the following five entities: Borough of East Petersburg, Borough of Mountville, Hempfield School District, East Hempfield Township, and West Hempfield Township. HARC is not reported as part of the Borough's reporting entity. For the year ended December 31, 2015, the Borough contributed \$8,928 to HARC. Complete financial statements for HARC can be obtained from the HARC Office at the Hempfield Sports Complex at 950 Church Street, Landisville, PA 17538.

#### B. Fund Accounting

The accounts of the Borough are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise its assets, liabilities, fund equity, revenues and expenditures, or expenses, as appropriate. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent.

# C. Basis of Presentation

**Government-wide financial statements** (i.e., the statement of net position and the statement of activities) report information on all non-fiduciary activities of the primary government. As a general rule, the effect of interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately in the government-wide financial statements.

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Borough's governmental and business-type activities. Direct expenses are those that are clearly identifiable within a specific function or segment. Program revenues include charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment. In addition, program revenues include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

# C. Basis of Presentation (Continued)

**Fund financial statements** are also provided in the report for all of the governmental funds and the fiduciary funds of the Borough. Major individual governmental funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The Borough reports the following major governmental funds:

The <u>general fund</u> is the Borough's principal operating fund used to account for all financial resources except those required to be in another fund. This fund also includes the activities of the payroll fund, the snow maintenance fund, the Thousand Islands LP fund, and the escrow fund.

The <u>capital projects fund</u> is used to account for financial resources related to fixed asset acquisitions, construction and improvements. This fund includes the Capital Reserve Funds, Construction Fund, Equipment Reserve Fund, and the Pool Reserve Fund.

The <u>special revenue funds</u> account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes. The funds included in this category are:

- The <u>Fire Tax Protection Fund</u> was established to account for the portion of the real estate tax receipts levied for fire taxes. Disbursements from this fund are to reimburse the volunteer fire company located within the Borough for expenses incurred.
- The <u>Highway Aid Fund</u> was established to account for the state distributions of the proceeds from the state tax on gasoline. Under the Act of June 1, 1956, P.L. 1944, No. 145, this fund must be kept separate from all other funds and no other funds shall be commingled with this fund. Disbursements from this fund are primarily for street construction and maintenance and repairs.

The Borough also reports the following enterprise funds:

The <u>Municipal Trash Fund</u> accounts for the revenues and other costs and expenses of providing trash/recycling services to residents, commercial, and industrial entities.

The <u>Water Fund</u> accounts for the revenues and other costs and expenses of providing water service to residents, commercial and industrial entities. This fund also includes activities of the water reserve fund.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The <u>6060 Main Street Fund</u> accounts for the revenue and other costs and expenses to maintain the rental property located at 6060 Main Street.

<u>Fiduciary Fund Types</u> are used to account for the assets held by the Borough as a trustee or agent for individuals, private organizations and/or governmental units. The funds included in this category are:

The <u>Non-Uniformed Pension Fund</u> was established to provide benefits for Borough employees. The principal revenue source for these funds is state contributions, employer contributions and investment earnings.

### D. Basis of Accounting

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements regardless of measurement focus.

The Borough's accounts are maintained, and these statements are presented, on the modified cash basis of accounting under which income collected, costs and expenses paid, assets, liabilities, fund balance and net assets arising as a result of cash transactions or from the acquisition of long-lived assets, for cash are recognized. Receivables, payables, and deferred expenses, which may be material in amount, are not reflected in the accompanying financial statements which are not intended to present the financial position or the results of operations in conformity with generally accepted accounting principles.

#### E. Budgets and Budgetary Accounting

An operating budget is adopted every year for the general fund on a modified cash basis of accounting. The general fund is the only fund for which a budget is legally required.

Appropriations lapse at the end of the year. Board approval is required for budget amendments. In order to preserve a portion of an appropriation for which an expenditure has been committed by purchase order, contract, or other form of commitment, an encumbrance is recorded. Encumbrances outstanding at the year-end are reported as reservations of fund balances. As of December 31, 2015, the Borough had no encumbrances.

The Borough Council may make new appropriations, supplementary appropriations and transfers from one appropriation to another during the fiscal year, provided it is within the current year's revenues or from funds made available from additional borrowings.

#### F. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds".

#### G. Capital Assets

Capital assets are not recorded and are considered an expenditure when purchased. No depreciation has been provided for in these financial statements.

### H. Long-Term Debt

Long-term debt arising from cash basis transactions of governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and the payment of principal and interest are reported as expenditures.

#### Estimates

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect certain reporting amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### J. Cash, Cash Equivalents and Investments

Cash and cash equivalents are defined as short-term, highly liquid investments that are readily convertible to known amounts of cash and include investments with original maturities of three months or less.

All investments are stated at cost, which approximates fair value.

### K. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources until then. During the year ended December 31, 2015, the Borough did not have any deferred outflows of resources.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources until that time. During the year ended December 31, 2015, the Borough did not have any deferred inflows of resources.

# L. Net Position Flow Assumption

Sometimes the Borough will fund outlays for a particular purpose from both restricted and unrestricted resources. It is the Borough's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

#### M. Fund Balance Policy

The Borough implemented GASB 54, Fund Balance Reporting and Governmental Fund Type Definitions, to address issues related to how fund balance was being reported. GASB 54 requires the fund balance amounts to be properly reported within one of the following fund balance categories:

Nonspendable – amounts that are not in spendable form (such as inventory) or required to be legally or contractually maintained intact,

<u>Restricted</u> – amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation,

#### NOTES TO FINANCIAL STATEMENTS

<u>Committed</u> – amounts that can be used only for the specific purposes determined by a formal action of the Borough Council (the borough's highest level of decision making authority). The Council is required to also take formal action to modify or rescind the commitment,

<u>Assigned</u> – amounts intended to be used by the Borough for specific purposes that are neither restricted nor committed. Assignments can made by the governing body itself or by its designee,

<u>Unassigned</u> – residual classification for the Borough's general fund and includes all spendable amounts not contained in the other classifications.
